Chapter 1 by -

Would you rather live on an inhabited planet but be stuck in one house, or live on a deserted island alone...

Please answer, and then come up with your own scenario!

Chapter 2 by -

I would take the island and name after myself! It would be quiet and peaceful... I could worship God without many distractions!

Would you rather die for a crime you did not commit, or live in prison the rest of your life for a crime you did commit?

Chapter 3 by -

I would rather die for a crime I did not commit. Living a life behind bars would be humiliating... Not to mention I would be a criminal in that case.

Would you rather have only one short story published, or write a novel that never gets published.

Chapter 4 by -

I would rather write a novel... I would have more room to create my characters and besides, I could share it with my friends and family.

Would you rather take a scalding hot shower for 30 seconds, or take a freezing cold shower for 1 minute?

Chapter 5 by -

I would rather take a scalding hot shower for 30 seconds because to me, freezing water feels about the same, so I would go with the shorter time.

Would you rather be thrown into a pit with an already feed hyena, or a hungry gorilla?

Chapter 6 by -

Wow... That is tough! I guess the last one because gorillas can be worked with (sort of). Hyenas are just totally freaky...

Would you rather be trapped in a house on fire with no escape, or trapped under a frozen pond?

Chapter 7 by -

Well... I guess the house on fire. Maybe I would be able to fight it somehow, or perhaps someone would see it and get help.

Would you rather be shunned from a community and live on a cold dark planet alone, or be embraced by aliens and live on a planet inhabited by them with you as the only person of the human race?

Chapter 8 by -

I guess I would rather live on a planet by myself. It would be better than feeling different, and perhaps even being seen as an outcast.

I would ask another question but it would serve no purpose seeing as this is the final chapter... So instead I will say this:
